

STEAME STUDENTS

European Networking of STEAME School Students for Exchange and Co-creation
2021-2-CY01-KA210-SCH-000047923

Full STEAME ahead!

Hello and Welcome Everybody to the first ever STEAME platform from Students for Students! Use the QR code on the left for direct access to the STEAME Students platform. Crawl through an easy registration and explore a new universe in the familiar galaxy of DISCORD a free voice, video and text chat app.

What's this project about?

by PROJECT TEAM

This project establishes a communication Network based on the DISCORD internet service (and/or other assisting tools like ZOOM or TEAMS or YouTube) for facilitating the exchange of ideas and creative thinking between school students interested in STEAME subjects (Science, Technology, Engineering, Arts, Mathematics, Entrepreneurship), including but not limited to high-ability students.

Why STEAME?

We consider STEAME Education and Learning approaches as the most optimal for the future. This is a student centered project, one of very few of this kind. The idea is to help school students of mainly secondary level (grades 7-12) to build up a community, able to sustain with progressively less supervision and mentoring. Thus the service in a fully innovative manner will allow school students to interact, communicate, present, discuss, post problems videos, post problems solution videos,

post teaching/learning videos, chat etc. For more info go directly to the STEAME Students platform.

Who are we?
