

STEAME STUDENTS

Invitation to School Students

Dear Students, you are invited to become active and be part of the development of the European STEAME Student Network (ESSN). This will be done through this project's platform supporting its aims and objectives in facilitating the exchange of ideas and creative thinking between school students, who are interested in STEAME subjects (Science, Technology, Engineering, Arts, Mathematics, Entrepreneurship). Target students of grades 7-12.

Opportunities for students

1. Network your mind and co-create
2. Become active for a chance to receive funding to attend a meeting in 2023
3. Post problems to other students
4. Post solutions to problems
5. Develop Digital Communication Skills
6. Exchange Project Based Learning ideas
7. Participate in online presentations and discussions
8. Become a student instructor and publish articles in the STEAME-STUDENTS PLATO Digital Magazine
9. Receive STAR likes and win prizes
10. Network with other school students.

Main Activities

Activity 1: European Online Student Creations Exchange Forum- THE PLATFORM

Activity 2: Student Community Kick-off Meeting for the European STEAME student Network (ESSN)
