

3rd PRESS RELEASE – SIEMdig

**“Social Inclusion and Emotional Maturity of the Society's youngest participants
helped by digitally competent teachers”**

SIEMdig Prepares for Final Meeting and LTTA: Platform Now Hosting Digital Tools and Interactive Stories

The Erasmus+ project SIEMdig - Social Inclusion and Emotional Maturity of the Society's youngest participants helped by digitally competent teachers is entering its final stage, set to conclude in November 2025. After almost two years of collaboration, the consortium is now preparing for the Final Transnational Project Meeting and the Learning, Teaching, and Training Activity (LTTA).

Upcoming Final Meeting & LTTA

The Final Meeting will bring together all partners to reflect on achievements, evaluate impact, and ensure sustainability of results.

At the same time, the LTTA will focus on piloting the Teacher Training Modules created during the project. These modules, compiled in the SIEMdig Teacher Training Guide, are ready to equip teachers with digital competences and inclusive pedagogical practices.

They cover key areas such as:

- Navigating the SIEMdig Digital Repository,
- Using the Interactive Digital Storytelling Platform,
- Designing inclusive classroom activities,
- Promoting empathy and emotional intelligence,
- Engaging families and communities.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

The SIEMdig Platform

The SIEMdig Platform now hosts several innovative resources for teachers and schools:

- Digital Tools Collection - a curated set of applications and platforms to support lesson planning, communication, and creativity in classrooms.
- Interactive Stories - engaging narratives for children aged 6-9 that promote empathy, tolerance, and respect through digital storytelling.
- Guide for Social Inclusion - coming soon, this resource will provide strategies for schools and communities to foster belonging and acceptance

Looking Ahead

As SIEMdig approaches its conclusion, the upcoming activities will ensure that the project's results are effectively tested, shared, and sustained beyond November 2025. With its platform, training resources, and inclusive educational tools, SIEMdig leaves a strong legacy for empowering teachers and nurturing empathy in Europe's youngest learners.
